INNOVATION & LEADERSHIP

INNOVATION

Innovation is at the core of what Tennant Company does. Every day we go the extra mile to develop cleaning equipment that offers increased productivity, improved operator comfort and enhanced cleaning performance.

SUSTAINABILITY

These days, municipalities and private institutions are faced with increasing governmental pressure to clean in a sustainable way. In order for you to meet the stringent requirements, we are constantly innovating. Results of these efforts include technological novelties such as CloudMaker for dust control, and lithium ion batteries for zero emissions. Our dedicated R&D team is constantly focusing on providing more of these environmentally-friendly and productivity enhancing technologies.

QUALITY

With a history of over 140 years, Tennant has always been renowned for its product quality and robustness. Choose Tennant for reliability and consistency in your outdoor cleaning operations.

SUPPORT

Tennant Company is proud of their extensive service network around Europe. Our technicians receive continuous training in order to provide the best levels of support to you. With our reliable Customer Support and Technical Support you will benefit from the peace of mind that comes from a complete care solution.

MANY YEARS OF EXPERIENCE

The 500ze electric has worked very well and has increased the performance and uplift of litter. It has been well-welcomed by people in the town centre. (...) From trialing with the diesel sweepers, we've decided to go electric because of the savings (...) and obviously the electric sweeper lowers the carbon footprint.

—Frasier Marshall
Principal Environmental Officer Dumfries and Galloway Council

You may select customised options to meet your unique cleaning requirements:

- Winter equipment
- Pressure washer
- Wander hose
- Reverse camera
- Custom colour
- City scrub
- Central lubrification
- Air conditioning

FOR EVERY CHALLENGE A SOLUTION

400 Series—Mobility and power

From city centre spaces to college campuses to city parks and zoos, this popular line of Green Machines equipment is compact enough to clean almost any outdoor space. The 400 Series' uniquely attractive styling coupled with its effective sweeping capabilities showcase your commitment to the environment.

Main features 400 Series

- Robustness
- Excellent manoeuvrability
- Very good compaction

ATLV 4300—The flexible cleaner

The ATLV 4300 is designed to clean safely, efficiently and cost-effectively. The ATLV 4300 cleans surfaces ranging from asphalt to concrete to grass, and also picks up hard-to-reach litter in fences.

Main features ATLV 4300

- Ergonomic controls
- Power steering for manoeuvrability
- All-terrain tyres

500ze—The electrical sweeper

The 500ze provides a vital step in assisting cities to meet their carbon emission targets since it emits no carbon or exhaust, creating cleaner cities and cleaner air for citizens. CO_2 reduction compared to a compact sweeper is the equivalent of removing the CO_2 output of 40 passenger cars. The 500ze also offers a considerable noise reduction that enables it to operate any time, night or day, or in noise-sensitive areas.

Main features 500ze

- Ecological
- Quiet to work day and night
- Low maintenance cost

636—Design and power come together

Outsmart dust and debris with the versatile 636 vacuum sweeper. Let your public space speak for itself. The 636 makes a positive impression in congested city centre spaces, parking areas, or any outdoor area where a professional sweeping job is required.

Main features 636

- Versatility
- Optimum ratio hopper size/machine size
- Excellent suction power

For detailed information on the above equipment, please request a copy of the in-depth product brochure.

ERGONOMICS AND PERFORMANCE

Cleaning outdoors requires the rugged durability and superior engineering of Tennant equipment. Maintenance professionals of parking lots, municipalities, educational facilities, parks, amusement parks and airports rely on high-performance litter vacuums and street sweepers to deliver dependable, long-lasting results today and for years to come. Designed around the operator, Tennant outdoor equipment enhances the operator experience and productivity.

FROM CUSTOMER INSIGHT TO PRODUCT INNOVATION

Developed with the customer in mind, we look for ways to improve the operator experience. Innovations in ergonomics and controls, combined with safety features such as panoramic view and lower noise levels, the Tennant range of outdoor and city cleaning equipment is among the broadest in the industry.

COST SAVINGS AND HIGHER PRODUCTIVITY

Tennant offers solutions that allow you to save money whilst enhancing productivity. Innovations that reduce water usage such as CloudMaker and top fill hopper capabilities make you run your machine longer at a lower cost of operation.

EXPERIENCE TENNANT TODAY IN YOUR OUTDOOR ENVIRONMENT

Whether you need to clean a busy city centre, wide open roads or the parking lot of a sports stadium, Tennant offers the full range of solutions to fit your needs. Choose Tennant for innovative technologies that deliver increased productivity, enhanced operator experience and reduced environmental impact. Operate Tennant equipment with minimal public disruption thanks to low noise levels and efficient sweeping performance.

PARKING LOTS
Parking lots or covered parking garages require a reliable and optimum cleaning in order to convey a safe and clean image. The Tennant Outdoor cleaning equipment offers the reliability and robustness to provide consistent productive cleaning results.

Ⓐ

CITY CENTRE
Busy pedestrian areas and narrow city centre streets are easily cleaned with the low-noise and exhaust emission-free 500ze or the agile and productive 400 Series. With little nuisance for passers-by you are now able to do the job quickly and effectively.

Ⓔ

SIDEWALKS
Pedestrian safety and sidewalk cleanliness are crucial for a municipality's image. Sweeping litter effectively in hard to reach places and without disrupting sidewalk traffic is easy with the 400 Series.

Ⓕ

Ⓑ

PARKS
Parks and amusement parks attract more visitors and discourage vandalism and littering when they are maintained well. With Tennant's Outdoor equipment you have the choice of small to large machines to do the job right.

Ⓒ

STREET SWEEPING
When it comes to street sweeping we have the right machine to meet your expectations of cleanliness, robustness and productivity - even in noise-sensitive areas. Rely on our innovations that control dust and reduce public disturbance.

Ⓓ

RETAIL PARKING
Whether at a convenience store or at a shopping centre, parking lots need to be cleaned regularly in order to guarantee safety and to maintain an appealing facility. Choose from the Tennant Outdoor range based on size and frequency of your sweeping operation.
